## AWARD MESSAGE

Well done with the recent initiative on iat2ipe certification process discovery, discussion, agreement, and execution of the process on 6/17. Though we have highly distributed applications and eco-system to support, RM team / Jim drove the discussion and pulled key players from RM, Dev, DevOps and Engineering. All teams have taken this process very seriously. We see great result that RUN core and RUN Mod work as one stream of certification effort. This allows us with high confidence of the quality of the software to sustain the independent deployment micro-apps to IPE and PROD that depending on the release candidate of RUN core patch release. We feel in better shape to ensure a smoother process and IPE env reliability in the long run because the system load certification is critical step for our application release to PROD. Thanks all for you leaning in, contributed to the effort and form a path forward. Stella
