## AWARD MESSAGE

Thank you all for taking time from your family on the Saturday and support CDL split from the Roseland network. We were able to quickly identify the connectivity issues in several env including QA, IPE and Training env. Our network team who is standing by was able to triage for us on the same time. Otherwise, we would have to wait next Monday at off business hour to make the change. The effort we spent on this Sat is important since internal users/developers/testers all rely on these env to deliver their work next week. We want to ensure the reliability of the infrastructure and underlying connectivity has no issues. Thank you for swarming in this during the short notice. Your effort gave us high confidence in the environment's readiness for the coming week.
